Security Options

Artromick Lock Systems & Options - TX10 & TX11 Medserver

Keyless Access with Auto-Relocking

Artromick has fitted the TX10 & TX11 Medservers with its proven and innovative automatic relocking system and the latest integrated medication cart security. To further optimize security, add a

secondary access requirement such as ID badge card, bar code or proximity reader.

Standard Features

AutoLock™

Automatically secures the cart whenever the cart remains motionless for a user-defined relock time interval of 1 to 99 minutes.

Easy-to-Edit Settings

Display screen shows messages, date and time settings, and easy-to-follow user instructions.

Multiple User Access

Users can be assigned different access rights based on job function and authorization.

Override Code

Provides authorized users with a special means of access that bypasses alarms, timers, and relocking mechanisms. Typically used while the cart is being restocked by the pharmacy.

LCD Battery Status Indicator

The extended-life battery system ensures an extra-long cycle of useful power supply with battery charge status clearly indicated in percentage on the LCD display.

Security Upgrades

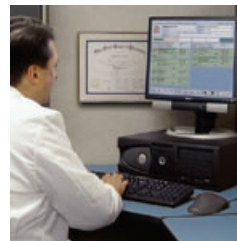

Secondary Access Security

Select from a bar code, mag stripe or proximity card reader to serve as the primary or secondary access requirement for the TX10 / TX11 Medserver.

Audit Tracking

Authorized users can track cart activity, including user access and relocking for over 2,000 events.

Remote Management

Wirelessly enables authorized users to program all carts and retrieve event logs, add /delete user profiles and adjust cart settings from a single PC. (see page 37)

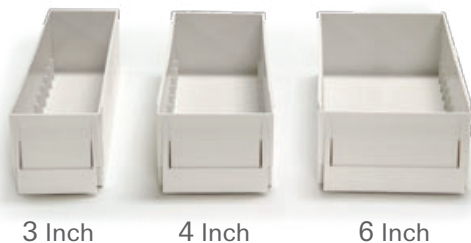

Storage Options

Artromick TX10 & TX11 Medserver

Storage Drawers

Bins

Bins and Drawers

The TX10 & TX11 permits you to select from a choice of patient medication bins and supply drawer sizes that are custom configured to your requirements.

- The 4-tier configurable storage area is completely customizable and flexible. Simply design the storage set-up that meets your storage needs by using the side selection of bins and/or drawers.
- Choose from full-shelf or individual bin access.
- Select the bin width that best meets your needs from 3" (4-across), 4" (3-across), or 6" (2-across) widths. Each storage area tier can feature a different size bin drawer if necessary.
- Configurable drawer storage is available in 3", 6" or 9" depths. Drawers can be relocated or added in the future if your storage requirements change.
