# Artromick Series TX11 Medserver

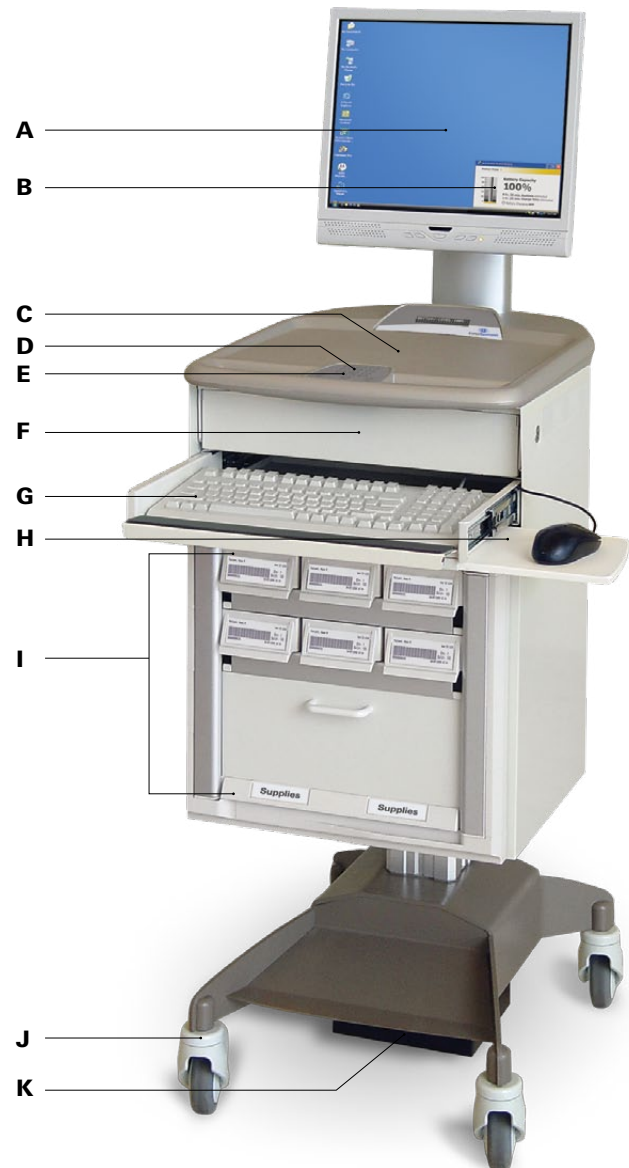

## by Capsa Solutions

The Artromick Series TX11 Medserver is designed specifically to accommodate a wide range of laptop computers in a retractable tray. The advance in laptop security and accessibility on the TX11 Medserver raises the bar in mobile computing workstations by protecting your investment and providing common sense usability.

By blending the features of mobile computing workstations with the security and organization of medication carts, Capsa defines a new benchmark to promote enhanced patient care and improve patient safety with innovative features.

The Artromick Series TX11 Medserver earns high praise for ease-of-use and maneuverability with its compact 18" wide profile. Streamlined nurse workflow is assured by taking the medication administration process directly to the point-of-care, further increasing efficiency to reduce medication errors.

### TX11 Medserver Highlights

- A** Open platform for a host of monitor options including 17" - 19" screens and available 17" touchscreen monitors
- B** PowerWatch™ power system monitoring
- C** Expansive work area with integrated forward-facing handles
- D** Ergonomic design with motorized height adjustment
- E** Keyless access with auto-relocking
- F** Secure retractable laptop tray
- G** Retractable 104 key keyboard; optional keyboard / mouse upgrades available
- H** Full selection of convenience accessories and options
- I** Configurable medication storage with 3 bin sizes and 3 drawer sizes
- J** Stable, trim-line footprint for simple maneuverability
- K** Robust power system for extended battery run times

### Unique Laptop Storage

The TX11 laptop tray can be adjusted for different laptop sizes to permit hardware replacements and upgrades.

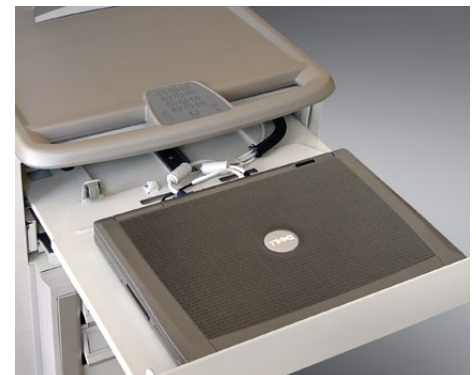

Capsa gives you a choice to accommodate the latest laptop models including popular healthcare IT units from HP, Dell, Panasonic, IBM and Toshiba.

### Secure Slide-Out Laptop Tray

Simple and secure, authorized personnel can quickly access laptop for routine updates or maintenance.

### Easy Accessible Cable Management

Cable management is a snap with the fully extended laptop tray. When work is completed, simply slide the tray back into locked position.

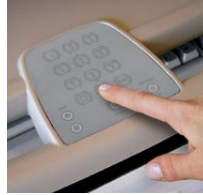

# Maximum Security for Medication Control

## Security Options

Capsa has fitted the TX11 Medserver with its proven and innovative automatic relocking system and the latest integrated medication cart security. To further optimize security, add a secondary access requirement such as ID badge card, bar code or proximity reader.

### Standard Features

Keyless Access with Auto-Relocking

### AutoLock™

Automatically secures the cart whenever it remains motionless for a user-defined relock time interval of 1 to 99 minutes.

### Easy-to-Edit Settings

Display screen shows messages, date and time settings, and easy-to-follow user instructions.

### Multiple User Access

Users can be assigned different access rights based on job function and authorization.

### Override Code

Provides authorized users with a special means of access that bypasses alarms, timers, and relocking mechanisms. Typically used while the cart is being restocked by the pharmacy.

### LCD Battery Status Indicator

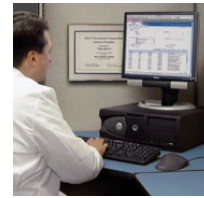

The extended-life battery system ensures an extra-long cycle of useful power supply with battery charge status clearly indicated in percentage on the LCD display.

## Security Upgrades

### Secondary Access Security

Select from a bar code, mag stripe or proximity card reader to serve as the primary or secondary access requirement for the TX11 Medserver.

### CartWatch™

Wirelessly enables authorized users to program all carts and retrieve event logs, add/delete user profiles and adjust cart settings from a single PC.

### Audit Tracking

Authorized users can track cart activity, including user access and relocking for over 2,000 events.

## TX11 Medserver Features & Specifications

The Artromick Series TX11 Mobile Computing Medserver offers a highly-advanced technology platform in a maneuverable and trim-line workstation. Efficient nursing workflow and medication management is enhanced by the Artromick Series TX11 Medserver though a small profile that permits simple navigation to the point-of-care.

Medication organization and security are assured with a configurable storage area that is compatible to a host of medication packaging and automation systems. The motorized height adjustment feature of the Artromick Series TX11 Medserver positions the monitor and keyboard to the user's preference and permits electronic documentation while standing or seated. Best of all, the advance in laptop security and accessibility on the Capsa TX11 raises the bar in mobile computing workstations by protecting your investment and providing common sense usability.

The robust power system with available PowerWatch™ monitoring is customized to make sure your computing solution attains the longest run-times possible...a critical requirement for healthcare mobile computing. This innovative technology is a core feature of the TX11 Medserver and part of a complete solution that gives your facility the finest next-generation mobile computing workstation available.

### Features

- Accommodates a host of laptop models including popular healthcare IT units from HP, Dell, Panasonic, IBM and Toshiba
- Easy-to-reach spiral power cord
- Power status display on LCD
- PowerWatch™ power system monitoring
- Integrated power conditioning system
- Integrated USB hub
- Retractable mouse tray
- 104 key keyboard on retractable tray
- Modular bin / storage drawers
- Keyless access with auto-relocking
- Wireless remote security control (optional)
- Electronic vertical height adjustment
- Advanced casters with 2 locking

### Benefits

- 360 watt-hours of usable power for cord-free mobile computing
- Improved workflow and accuracy
- Safe and ergonomic design
- Advanced medication security and control
- Lightweight design for easy maneuverability
- Customized medication / supplies storage

### Power Conditioning System Specifications

Input Voltage:	115 VAC (range 90–130 VAC) or 230 VAC (range 180–260)
Output Voltage:	2 channels 12–24 VDC 1 channel 5 VDC
Charger:	Multi-Stage Smart Charger
Battery Type:	12V sealed lead acid with 50 amp hours for extended run times
Short-circuit:	15 amp DC breaker
Status Indicator:	Battery status on LCD display
Regulatory:	Tested to FCC Class A, Part 15

### Standard Cart Specifications

Base Dimensions:	16" x 19.5" 40.5cm x 49.5cm
Work Surface Area:	18" x 13" with integrated forward-facing handles 46cm x 33cm
Work Surface Height:	35"–46.75" 89cm–119cm
Medserver Height:	52.5"–64.25" including monitor 133cm–163cm
Construction:	Formed steel, aluminum, high-density polymer work surface
Finish:	Durable powder coat
Wheels:	2 locking, 2 standard, tracking optional
