

Introducing the NEW VX Computer Cart Line.

Mobile Computing Solutions

Based upon important feedback from clinical and health IT professionals worldwide, Capsa created the VX Computer Cart line to offer you a full-featured, powered cart that promotes superior configurability based on the application. This flexibility within the VX line lets you configure the cart with your preferred choice of computing hardware powered by a proven system that maximizes overall computer cart uptime.

About Capsa Solutions

Capsa Solutions may be a new name to you, but the company offers your healthcare organization a rich heritage of innovative product development and superior customer support. Through the acquisition of Artromick, MMI Med Carts, and IRSG Healthcare Storage, Capsa Solutions provides a deep product offering built to optimize clinical efficiency, storage organization, and patient care support. The innovative line of mobile computing carts from Capsa Solutions represents over 10 years of advanced development in computer cart evolution. Today, this expertise is being applied to the new VX line of computer carts from Capsa Solutions.

VX Features

- The NEW VX mobile computing cart line offers maximum flexibility and a superior features / value relationship to make sure you get the most out of your computer cart program budget
- Capsa VX Computing carts provide an open platform design and accommodates the latest hardware solutions, including all-in-one PC's, laptops, thin-clients, and tablets
- Ergonomic adjustability is simple with a host of design features including tilting keyboard and Capsa's LiftAssist™ height adjustment
- Exclusive and proven DC power system to promote consistent performance and extended cord-free run times
- Antimicrobial surfaces support your infection control program
- Small footprint and slim profile ensure simple maneuvering throughout the facility
- Single-wheel casters promote smooth travel with each model including (1) locking and (1) tracking caster standard
- Flexibility to configure workstation with storage drawers including 3", 6", or 9" depths
- A host of drawer security options including basic key access or keyless PIN with auto-relock
- Optional CartWatch™ Remote Management software keeps your cart fleet security managed from a single PC location
- Capsa's robust PowerWatch™ software provides a real-time view into the power system health of your mobile computer carts
- 24/7 Customer and Technical Service provide clinical and IT teams the support they deserve
